## Sewer Rate Increase

The Campbell wastewater is treated at the La Crosse Wastewater Treatment Facility. A major upgrade of that plant is in progress with La Crosse investing about \$65,000,000. The Treatment Charges that Campbell pays La Crosse have been increasing the past few years and have been estimated to increase an additional 9% in 2024. Campbell is also continuing repairs and improvements to our collection system. To generate the revenue for those projects, the Campbell Sewer rates will increase to \$430 per REU (Residential Equivalent Unit) for 2024.
